Maine Department of Health and Welfare

Division of Public Health Nursing, Bureau of Health

Annual Report of Public Health Nursing Service in Newburgh for the year 1967

The effectiveness of a community health service depends to a large extent on the interest in and the understanding of the public health program by all citizens of that community. It is essential that they appreciate the value of that service. From a personal standpoint they should be interested in the program because the individual's physical, emotional and economic needs affect other citizens, and because the cost of this service is directly or indirectly borne by the individual taxpayers of the community.

The public health nurse maintains a program of guidance and education by teaching health rules and assisting in the prevention of disease and deformity, thus lessening human suffering.

A summary of the public health nursing service in your community for the past year follows:

CHILD HEALTH CONFERENCE PROGRAM

Attendance	32
Number Children Examined by Physician	28
Number Immunized:	
Smallpox	2
Measles	3
Diphtheria, Whooping Cough, Tetanus	8
Poliomyelitis	4

SCHOOL HEALTH PROGRAM

Audiometer Tests	110
------------------	-----

The school immunizations and physical examinations are done by Doctor Harold Cross. Plans will be made to do the tuberculin tests in January 1968.

There are many services given by your public health nurse that are not shown in the above statistical tabulation. These services include health guidance given in visits to individuals and families in their homes and in the schools.

Individuals have had clinic services of the Department of Health and Welfare when they were referred by their family physician.

Restorative nursing services were given to those who needed care in their homes under the direction of the family physician.

Your public health nurse wishes to thank all those assisting her with the various health programs.

Respectfully submitted,

GEORGINA J. PATTERSON

Bangor Hydro donated a 1954 G.M.C. pick-up to us last fall thanks to Orrin Kimball.

The 1943 Ford Fire truck tank is leaking so badly we have retired it and purchased a newer unit.

The new truck is a 1964 Chevrolet model 60 HD with 1500 gallon tank. The asking price was \$3,950.00. We purchased the chassis and tank for \$3,600.00 and for \$603.61 were able to install siren, lights, pump, piping, ladder racks, painting & lettering.

The 1964 1500 gallon truck is at House No. 1 on Route 9 and 1954 1200 gallon truck is at House No. 2 on the Kennebec Road. The retired old 1943 Ford may be used by the town and the 1954 pick-up has no plans at the moment.

BUILDING ORDINANCE
for the
TOWN OF NEWBURGH, MAINE

An Ordinance to promote the health, safety, convenience and welfare of the inhabitants by regulating the construction of buildings and use of premises.

Policy Statement: This ordinance will not be invoked to harass any citizen.

Provisions regarding the location of structures with respect to lot and street boundaries are intended to protect owners and abutters against unconsidered actions which might depreciate the value of their properties. Provisions regarding compliance with pertinent State and Federal building and sanitary codes are necessary to safeguard the health and welfare primarily of occupants and, secondarily, of other citizens. They will not be interpreted to limit the proper rights of individuals, except in matters affecting individual or general health and safety or the property values of neighbors. None of these provisions are retroactive.

Section I

1. No building shall be erected until plans stating the location, size of building, what is to be used for cover on walls and roof, plumbing facilities and electric wiring shall be submitted to the Selectmen for approval. If said plans are approved by Selectmen a copy of said plans shall be recorded by the Town Clerk along with a building permit from the Selectmen, stating the condition of said permit and time said building shall be completed.

Section II

1. No building shall be erected on a lot less than one hundred (100) feet wide and one hundred fifty (150) feet deep from the road or street line, unless such lot was separately owned at the time this ordinance is adopted.

2. No dwelling or other structure shall be erected or placed within twenty-five (25) feet from the boundary line between road or street and the lot, or within ten (10) feet of the other boundary lines of the lot.

3. In general, no building shall be erected which does not conform in general appearance to other structures or dwellings in the neighborhood, and nothing shall be constructed, installed or utilized in a way which manifestly depreciates the value of the property in a given part of the town.

4. All buildings hereafter erected, shall provide for reasonable protection of life and safety in the construction, arrangement and use of exit facilities from the building, together with all features of design and construction as have a bearing on safety or egress. In the construction of exits, exitways, doors, doorways, halls, hallways, passages and passageways, the construction shall conform to the generally accepted standards of good practice.

5. All buildings will have chimneys of a type and/or design approved by the National Board of Fire Underwriters.

6. All electrical wiring must meet the standards established by the pertinent State Boards and the National Board of Fire Underwriters.

7. No building may be erected unless it conforms to the health and sanitary regulations of the State and National authorities.

Section III

1. Applications for permits shall be submitted in such form as the Board of Selectmen shall prescribe, by the owner, lessee, or agent of either, or the builder employed in connection with the proposed work.

2. It shall be the duty of the Selectmen to act on all applications within ten (10) days.

3. No building for which a permit is issued may be occupied until the Board of Selectmen have issued a certificate of occupancy, at which time the fee for the permit and certificate of occupancy shall be paid. Prior to issuing a certificate of occupancy, the Board of Selectmen or member(s) thereof will inspect the premises, and if the terms of the permit have been complied with and the permit fee paid, the certificate of occupancy will be issued.

4. The Board of Selectmen may, at their option, issue a temporary certificate of occupancy.

5. The fee for a building permit, including certificate of occupancy, shall be five (\$5.00) dollars, which shall also cover all costs of inspection.

6. The Board of Selectmen are empowered to take legal action against those who do not conform with this ordinance.

HEALTH

Maine Department of Health and Welfare

Division of Public Health Nursing, Bureau of Health

Annual Report of Public Health Nursing Service in
Newburgh for the year 1968

The public health nurse provided your community with a generalized nursing service. She gave service to individuals and families in their home, at school, in state operated clinics and other service settings.

Your public health nurse assisted in the promotion and maintenance of health, in the prevention of disease, and gave care to children with crippling conditions.

The nurse admitted five new patients to public health nursing service.

The patients were referred to her by sources such as the patient or family, the Tuberculosis control program or through a public health nurse case finding.

The nurse made home visits to seven individuals and gave supportive service to individuals by conferring with school personnel, town officials, physicians and other individuals.

The nurse made twenty-eight home visits to patients with the type of condition presented in the list below:

Diabetes

Epilepsy

Crippling Conditions

No illness

Communicable disease control

Cardiac condition

Non-communicable illness not classified

Fifty-three school children had their hearing tested by your public health nurse. All but one child passed the test. Follow-up revealed the child was under the care of a physician.

Your nurse planned Tuberculosis skin testing with school personnel.

Fifty-four children were skin tested and nine school personnel.

Respectfully submitted,

CHARLOTTE K. THOMAS R.N.

Public Health Nurse

We have two projects — Beano and Firemen's Ball. Our Beano project needs more support and the Ladies' Auxiliary could use a volunteer occasionally to furnish refreshments — you are reimbursed except for your time.
